World Food Day

The theme for World Food Day 2023 October 16th is "Water is life, water is food. Leave no one behind."

Access to clean water is not only essential for survival but also plays a vital role in ensuring food security for all.

Today 2.4 billion people live in water-stressed countries where the majority of the people are smallholder farmers who already struggle to meet their daily needs, particularly women, indigenous peoples, migrants and refugees.

What can vou do?

- Be conscious of how much water you use each day.
- Find ways to reduce unnecessary consumption of water.
- Choose local, seasonal, and fresh foods.
- · Be conscious of food waste.. only shop and buy for what vou need.
- Find safe and creative ways to use up leftover food.
- Donate to TROCAIRE who fund sustainable

development projects in the most vulnerable areas of the world.

First Friday Calls this coming week. Anyone not on the list who would like a call contact Fr Colm or Ann.
